Dear Bill & John,

The Maumee High School **Housing By Design** students would like to express our thanks and appreciation for an excellent field trip experience on Thursday, May 1st. As we complete our trimester this month the students have been able to use this experience to develop their understanding and create plans for their final projects in housing design. Currently, students are working on landscape design. Next week we will be looking at new technologies in the housing industry. We have referred many times to your website and students are checking out the energy use on the home we visited. What a great tool! What a great concept! You have their attention!!! This experience has truly enhanced our in-class curriculum and student comprehension.

Thank you again for taking time to make a difference to our students educational experience. This visit was so beneficial for creative minds with the future before them. It was a great opportunity for them to appreciate the value of what we are learning in the classroom and how it relates to the world beyond the walls of Maumee High School. I am so glad that our paths crossed.

Respectfully,

Melizu Freyre
Edu J. Palacios
